

**RFP and Schedule Update
2021 EAL Renewables RFP
July 9, 2021**

Entergy Arkansas, LLC. (“EAL”), hereby notifies interested parties of a schedule update for the 2021 EAL Renewables RFP (“RFP”). The RFP is expected to be issued in the third quarter of 2021. In the RFP, EAL will be seeking to obtain ~500 megawatts of renewable resources through a combination of build-own-transfer (“B-O-T”) agreements, self-build alternatives, and power purchase agreements (“PPAs”). EAL reserves the right to acquire out of the RFP more or less capacity than the above target. A portion of the selected resources may be allocated to specific customer contracts and/or agreements.

As new information becomes available, EAL will update potential bidders and other stakeholders through notices posted on the RFP website.

Please monitor the RFP website for further information about the RFP.
